

Our catalogue pages are split between bulk quantities for our Manufacturers and Distributors and retail packs for the individual caravan owner.

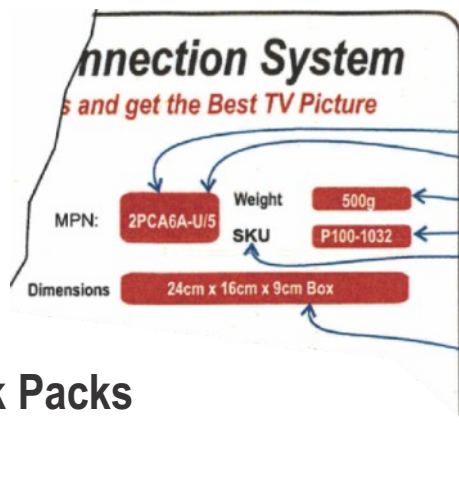

All plates are suitable for Television and some are suitable for 4G. You will find unique configurations for the Caravan and RV markets

Plates or Outlets are the cosmetic end of the signal business but connections must be suited to cable types for best results.

There will be outlets for any type of application available from our web over time as vendors come on board.

SINGLE - OUTLET PLATES - CARAVAN

What the label says:

The **MPN**: is that what you ordered?

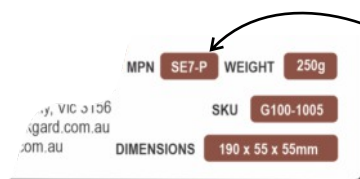

The **U** on the end of the Part No. indicates an Unpackaged part & quantity.

The **SKU** is the product identity.

The /5 or /10 or /20 after the P or U is the quantity.

The Weight and Dimensions are for delivery.

Bulk Packs

P on the end of the Part No. indicates a Packaged part. A /5 or /10 or /20 after the P is the quantity.

Single Packs

What the label says:

The **MPN**: is that what you ordered?

P on the end of the Part No. indicates a Packaged part.

The **SKU** is the product identity.

The Weight and Dimensions are for delivery.
